## *ATA is seeking outstanding employee owners*

ATA Engineering, Inc., (ATA) is an award-winning, 100% employee-owned engineering consulting firm with headquarters in San Diego, California. Our rapidly growing regional offices are located in Albuquerque, Berkeley, Denver, Huntsville, Los Angeles, and Washington DC.

ATA's success is reflected in our many accomplishments, including the recognition we have received for workplace excellence. We were selected as a Winning Workplace and one of The Wall Street Journal's Top Small Workplaces in North America for our exemplary work environment and business model. ATA was also presented with the Innovations in Employee Ownership award by the National Center for Employee Ownership and UC San Diego's Beyster Institute. We embrace employee ownership as a way to foster an entrepreneurial spirit among our employee owners, instill in them a strong sense of responsibility for the company, and reward them for providing innovative and high-quality solutions to problems and—most importantly—creating customer delight. ATA cultivates a positive collaborative environment, with camaraderie and many opportunities for professional growth and development.

To support our continued growth, we are looking for mechanical, structural, aerospace, and materials engineers, and business development staff with engineering degrees in Mechanical Engineering, Aerospace Engineering, Structural Engineering, Engineering Mechanics, or similar. Engineers who also have a passion for software development will find a place where they can develop engineering tools of the future. We seek innovative thinkers with diverse talents and the highest standards of academic excellence—those who will thrive in a company culture based on mutual respect, a strong work ethic, and teamwork, and who are able to help support and grow our business across a variety of engineering disciplines.

# Join Our Team

## Requirements and Responsibilities for All ATA Positions Listed

- Excellent written and verbal communication skills
- Opportunities to travel and work at client sites
- Provide clients with results that satisfy quality, cost, timing, and other project specifications
- Prepare and give oral presentations to clients and at technical conferences
- Must be a US Person

## How to Apply

We appreciate your interest in ATA Engineering and request that you submit the following materials if you are qualified and wish to join our team of employee-owners at ATA Engineering:

- A current résumé or CV.
- A copy of your up-to-date college transcripts. You may email them or request that an official transcript be sent directly to the address below. If your transcript contains identifying information such as Social Security Number or date of birth, please delete this information prior to submitting your transcripts.
- A statement confirming that you meet the definition of a US Person as defined by 22 C.F.R. § 120.15.

Please note: we prefer electronic copies of all documents, but you may also mail them to the address below if necessary. *Many of our contracts require access to government, defense, and classified information. We cannot consider your application unless you are a US Person.* Unless you specifically state otherwise in your cover letter or email, you will be considered for all current openings at all ATA locations. Once we have reviewed your qualifications, you will be contacted by email regarding the status of your application.
